CARE TIPS

1. **Wipe Down Regularly:** Clean the surface with a soft, damp cloth to remove dust and dirt. For stubborn marks, use a mild soap solution and a soft sponge. Avoid using abrasive sponges or rough materials, as they may damage the finish.
2. **Avoid Harsh Chemicals:** Stay away from strong cleaning products, bleach, or solvents that can affect the protective E-coat finish.
3. **Use Protective Coasters & Mats:** When placing drinks, hot items, or sharp objects on the table, always use coasters or mats to avoid scratches or damaging the surface.
4. **Rinse After Exposure to Saltwater:** For coastal areas, it's advisable to occasionally rinse the table with fresh water to remove salt and prevent corrosion.
5. **Keep Dry:** While the table is weather-resistant, it's best to avoid prolonged exposure to standing water or heavy rain.
6. **Store During Extreme Weather:** If possible, bring the table indoors or use a cover during harsh weather conditions like storms or hail to prolong its life.
