

MILO LOUNGE CHAIR

CARE GUIDE

CONTENTS

Please review this document carefully before you relax on your new chair, as it contains essential details on how to care for your product and any assembly instructions if required.

When unpacking your new chair, be sure to lay the contents on a carpeted or cushioned surface to prevent damage to it, before finding its new location.

NEED TO KNOW

Address spills promptly; do not leave them unattended.

Avoid using abrasive cleaners.

Immediately blot spills with a clean, absorbent white cloth.

The cleaning code may differ based on the selected fabric.

Exposure to direct sunlight may cause slight fading.

Seek professional guidance for stains before using cleaning solutions.

Vacuum upholstery regularly. Pilling is classified as wear and tear and is not a warranty manufacturing defect.

Fiber pills can be carefully removed with a battery operated pilling tool, available from most haberdashery stores.

FABRIC CARE GUIDE FOR UPHOLSTERED PRODUCTS

Proper care of upholstered chairs helps preserve their appearance, comfort, and longevity. Follow these steps to keep your chairs looking fresh and clean for years to come.

1. General Maintenance

- **Vacuum Regularly:** Dust and dirt can settle into the fabric fibres, leading to wear over time. Vacuum your upholstered chairs at least once a week using the upholstery attachment.
- **Rotate Cushions:** If your chair has removable cushions, rotate them regularly to ensure even wear and prevent sagging.

2. Spot Cleaning

- **Blot, Don't Rub:** If you spill something, immediately blot the area with a clean, dry cloth. Rubbing can push the stain deeper into the fabric and damage the fibres.
- **Use a Mild Soap Solution:** Mix a small amount of mild dish soap with lukewarm water. Dampen a clean cloth with the solution and gently blot the stain. Avoid soaking the fabric.
- **Test Before Cleaning:** Always test any cleaning solution on a hidden area of the fabric to ensure it doesn't cause discolouration or damage.

CARE TIPS

Note – use non-abrasive furniture cleaners to ensure your table receives the best care.

- Always read the label of cleaning products to ensure suitability before using.
- Mild cleaning products can be safely applied to the metal's surface. Just be sure to wipe the solution with a clean, soft cloth.

Tip – Check the legs regularly and retighten if necessary.
